THE ROSES WE DISPLAYED  
AT THE FLOWER SHOW.

Many of our visitors were interested in knowing the names of the roses displayed in our Exhibit and we present herewith a list of all the plants shown, representing varieties that are practical for any garden and are to be found in our catalog.

Against the Black Velvet Background we arranged Red Dorothy Perkins which showed a very good shower of red blooms in clusters, next to these we had Tansendschoen or Thousand Beauties with its various tints of pink blooms of medium size. In the center we arranged a few choice specimens of Magna Charta. These were not in full bloom but showed substantial buds that promised a wonderful bloom when opened.

At the center front were shown cut flowers of Premier, a very choice variety of Everblooming Rose which produces fine specimens not only under Green house Culture but in the Home Garden, out of doors. Its deep pink color, large pointed bud and prolific blooms make it ideal for any garden.

Also shown in the display was Rosiere, a red Tansendschoen with its various tints of red flowers and many of them.

Rose Trees were also shown but inconspicuous because they were in 1/2 standards and hidden among the bushes. The varieties were Orleans, a Baby Rambler and Tansendschoen in early stages of development.

At the four corners were shown four evergreens, two American Arbor Vitaes and two Pfitzers Juniper.

The dormant bushes shown in front of the Cut Flowers were of the variety Mme. Caroline Testout in our two sizes First and Second Size Plants.

Early Orders will insure your having  
good Rose Bushes this Spring.

Early Planting will insure your having  
the best Results this Summer.

Since publishing our Spring Catalog, we have received so many orders that we are now sold out on many varieties.

To simplify your selection we list herewith varieties of Rose Bushes which we still have in good sizes and quality:

NEW VARIETIES

Eldorado

Souvenir de Claudius Pernet

Hugonis

### VARIETIES OF SPECIAL MERIT

Chateau de Clos Vougeot

Dora Hanson

### POPULAR VARIETIES OF EVERBLOOMING VARIETIES
